New double technology

VEGAN AGAR & GELATIN MARIJUANA OIL SOFTGEL CAPSULES

EQUIPMENT
We sell the equipment line for the production of Marijuana oil and Cannabis oil soft gel capsules

TECHNOLOGY

CONDITIONS
Royalty free. Raw materials are available on the open market.

PRODUCT
Marijuana, Cannabis, Hemp and Herbal oil softgel capsules. The capsule shell of plant material agar or gelatin.

GMP STANDARD
The equipment line meets all modern requirements for the production of Marijuana oil softgels.

SERVICE
Learning step by step. Advice and assistance in starting a business.

WWW.CAPSULESFORYOU.COM equipment and technologies for encapsulating Marijuana oils in agar soft gel capsules, capacity of about 90000 CBD softgels per 1 hour.
We offer our clients a know-how worldwide. The unique equipment Encapsulator for production of Marijuana, CANNABIS, HEMP oil softgels capsules, encapsulation of oil in a capsule cover, filling of the capsule oil. The received production (capsules without seams) has the name - soft seamless vegan capsules. We actively introduce the new technology of capsulation allowing to do capsules without production wastes among Marijuana oil producers. Having extensive experience of production of vegan capsules, we help our clients until release of finished goods.

All encapsulated equipment used in this technology is manufactured by our company and today remains to the most available at the price in the pharmaceutical market of the whole world. Unconditional advantage of a capsulation is the high efficiency of the line, use of effective price raw materials, the absence of defects and lack of production wastes.
Soft gels capsules characteristics

NEW OF THE MARKET MARIJUANA OIL

**Vegan and Organic product**
The round capsule shell is made from vegetable raw materials or gelatin. Seaweed NOT GMO. ORGANIC. VEGAN

**Capsule size and shape**
The diameter of the capsules is 4-10 mm / 0,157-0,39 inch.
The dose of Marijuana oil is 20-400 mg in 1 capsule / 0,0007-0,0141 oz in 1 capsule.

**Shell properties**
The thickness of the capsule shell is 0.02-0.1 mm / 0,00079 - 0,0079 inch. Chews easily in the mouth. Apple flavor.

**Shell composition**
Agar-agar (or gelatine), plasticizer, food coloring, preservative, distilled water.

WWW.CAPSULESFORYOU.COM equipment and technologies for encapsulating Marijuana oils in agar soft gel capsules, capacity of about 90000 CBD softgels per 1 hour.
Marijuana oil capsules can be used in the molecular kitchen and pastry to create the WOW effect. The consumer can use the minimum dose in the form of a soft gel capsule that can be taken in hand.

**Very thin shell**
The capsule has a minimum amount of shell material. This is a fantastically small amount. Shell thickness capsules 0.02-0.1mm / 0.00079 - 0.0079 inch

**No oxygen (O2) inside**
The technology makes CBD oil capsules without a bubble of air inside. CBD oil does not oxidize for a long time.

**The dose of marijuana oil**
20-400 mg 0,0007-0,0141 oz
The consumer can use the minimum dose in the form of a soft gel capsule that can be taken in hand.

**Food design**
Marijuana oil capsules can be used in the molecular kitchen and pastry to create the WOW effect.

**Quick effect**
Small round soft gel capsules can be easily swallowed for children, pets, people with health problems.

**Types of packaging Marijuana oil softgel**
Capsule shape allows you to pack products in blisters, plastic bottles, sachet bags, cardboard boxes. Individual packaging is possible for one capsule with CBD oil.

**Savings policy**
In the process of producing soft gel capsules, the amount of waste is not more than 1%. Allows you to get the maximum profit.

**Mix marijuana and other oils**
The possibility of obtaining within one capsule several types of cbd oils.

Production stages

INTUITIVENESS & EASE OF USE IN CANNABIS BUSINESS

Agar (Gelatin) Gel
According to the formula, prepare agar gel in the reactor, connect the pipeline to the Encapsulator.

Marijuana oil preparation
It is necessary to check the quality of the marijuana oil and place it in the Encapsulator tank.

Soft gel capsule production
The process of forming capsules is completely automatic. Time works for 24 hours without stopping.

Cooling and drying the capsules
After making the softgel capsules must be dried before packaging. Drying time 4-5 hours

Inspection and packaging
The resulting softgels capsules are tested for quality. The final stage is packaging.
For start-up and factory

MINIMUM INVESTMENT TO START MARIJUANA OIL FACTORY

- Only 2 liters / 0,53 gal of Marijuana oil as the minimum load of equipment for the test or a small batch of products.
  - Placement of equipment in a small marijuana laboratory or room.
  - The ability to service equipment by 2 employees.
  - Compact size and weight of equipment, wheels to move around the room.
  - Easy to manage and clean. It can be used both in the laboratory and in the industrial production of capsules.

Specifications

**Specifications ENCAPSULATOR MARIJUANA OIL INFORMATION**

**Capacity**
- 90,000 capsules per 1 hour
- 720,000 capsules / working day
- 80 kg capsules / working day
- 176,37 lbs capsules / working day

**Working temperature**
- Heating temperature agar gel max +100 °C / 212 °F
- Cooling temperature of oil -5 °C / 23 °F

**Operating rules**
- The recommended working time is 12 hours per shift. Continuous mode 24 hours a day.

**GMP model**

**Materials**
- All parts of the equipment are made of stainless steel AISI304 and AISI316. GMP.

**Power supply voltage**
- Power is 2.5 kW
  - For the US, UK, Canada 110V
  - For other countries 220V

**Size and weight**
- Size 900x900x1950 mm
- Size 35.43x35.43x76.77 inch.
- Net weight 250 kg / 551.15 lbs
- P/Weight 300 kg / 661.39 lbs.

Squares for your marijuana oil capsules factory

**FACTORY ROOM FUNCTIONS**

1. **Laboratory**
   - Area from 100 ft² / 10 m²
   - Control parameters of incoming materials.
   - Gel preparation.
   - Cooking oil filler capsules.
   - Control the viscosity of the gel.

2. **Warehouse**
   - Area from 100 ft² / 10 m²
   - Warehouse of incoming materials. Finished products warehouse.

3. **Production room**
   - Area from 160 ft² / 15 m²
   - Marijuana oil capsule production.
   - Placement of the entire production line.
   - Encapsulator and additional equipment.

4. **Wash room**
   - Area from 100 ft² / 10 m²
   - Cleaning the surface of the capsules. Preparation of capsules for drying.

5. **Capsule Drying Room**
   - Area from 100 ft² / 10 m²
   - Racks for placing the capsules at the time of drying.
   - Preservation of the desired temperature, the separation of moisture from the air, ventilation of the air.

6. **Packing room**
   - Area from 100 ft² / 10 m²
   - Visual quality control of finished capsules.
   - Check the weight, thickness of the shell.
   - Packaging equipment ready capsules.
