PRODUCT

Marijuana, Cannabis, Hemp and Herbal oil softgel capsules. The capsule shell of plant material agar or gelatin.

GMP STANDARD

The equipment line meets all modern requirements for the production of Marijuana oil softgels.

SERVICE

Learning step by step. Advice and assistance in starting a business.

Marijuana Encapsulator

TEAM MARIJUANA OF PROFESSIONALS

About Our Company

FOUNDED IN EUROPE 2018

We offer our clients a know-how worldwide. The unique equipment Encapsulator for production of Marijuana, CANNABIS, HEMP oil softgels capsules, encapsulation of oil in a capsule cover, filling of the capsule oil. The received production (capsules without seams) has the name - soft seamless vegan capsules. We actively introduce the new technology of capsulation allowing to do capsules without production wastes among Marijuana oil producers. Having extensive experience of production of vegan capsules, we help our clients until release of finished goods.

All encapsulated equipment used in this technology is manufactured by our company and today remains to the most available at the price in the pharmaceutical market of the whole world. Unconditional advantage of a capsulation is the high efficiency of the line, use of effective price raw materials, the absence of defects and lack of production wastes.

Soft gels capsules characteristics

NEW OF THE MARKET MARIJUANA OIL

Vegan and Organic product

The round capsule shell is made from vegetable raw materials or gelatin.
Seaweed NOT GMO. ORGANIC. VEGAN

Capsule size and shape

The diameter of the capsules
4-10 mm / 0,157-0,39 inch.
The dose of Marijuana oil
20-400 mg in 1 capsule
/ 0,0007-0,0141 oz in 1 capsule.

Shell properties

The thickness of the capsule shell
is 0.02-0.1 mm / 0,00079 - 0,0079 inch.
Chews easily in the mouth. Apple flavor.

Shell composition

Agar-agar (or gelatine), plasticizer, food coloring, preservative, distilled water.

Advantage

NEW MARIJUANA CANNABIS HEMP OIL PRODUCT

Very thin shell
The capsule has a minimum amount of shell material. This is a fantastically small amount. Shell thickness capsules 0.02-0.1mm / 0,00079 - 0,0079 inch

No oxygen (O₂) inside
The technology makes CBD oil capsules without a bubble of air inside. CBD oil does not oxidize for a long time.

The dose of marijuana oil
20-400 mg 0,0007-0,0141 oz
The consumer can use the minimum dose in the form of a soft gel capsule that can be taken in hand.

Food design
Marijuana oil capsules can be used in the molecular kitchen and pastry to create the WOW effect.

Quick effect
Small round soft gel capsules can be easily swallowed for children, pets, people with health problems.

Types of packaging Marijuana oil softgel
Capsule shape allows you to pack products in blisters, plastic bottles, sachet bags, cardboard boxes. Individual packaging is possible for one capsule with CBD oil.

Savings policy
In the process of producing soft gel capsules, the amount of waste is not more than 1%. Allows you to get the maximum profit.

Mix marijuana and other oils
The possibility of obtaining within one capsule several types of cbd oils.

Production stages

INTUITIVENESS & EASE OF USE IN CANNABIS BUSINESS

For start-up and factory

MINIMUM INVESTMENT TO START MARIJUANA OIL FACTORY

Only 2 liters / 0,53 gal of Marijuana oil as the minimum load of equipment for the test or a small batch of products.

- ✓ Placement of equipment in a small marijuana laboratory or room.
- ✓ The ability to service equipment by 2 employees.
- ✓ Compact size and weight of equipment, wheels to move around the room.
- ✓ Easy to manage and clean. It can be used both in the laboratory and in the industrial production of capsules.

Specifications

ENCAPSULATOR MARIJUANA OIL INFORMATION

Capacity

90 000 capsules per 1 hour
720 000 capsules / working day
80 kg capsules / working day
176,37 lbs capsules / working day

Working temperature

Heating temperature agar gel
max +100 C / 212 F .
Cooling temperature of oil
- 5 C / 23 F

Operating rules

The recommended working time
is 12 hours per shift. Continuous
mode 24 hours a day.

GMP model

Materials

All parts of the equipment are
made of stainless steel
AISI304 and AISI316. GMP.

Power supply voltage

Power is 2,5 kW
For the US, UK, Canada 110V
For other countries 220V

Size and weight

Size 900x900x1950 mm
Size 35,43x 35,43x76,77 inch.
Net weight 250 kg / 551,15 lbs
P/Weight 300 kg / 661,39 lbs.

FIND STAFF AND FUNCTIONS MARIJUANA OIL CAPSULES FACTORY

➤ **Technologist marijuana oil**

Man or woman. Education in the field of food or pharmaceutical production.
Control of incoming raw materials.
Gel preparation and loading of Marijuana oil.
Check the first capsule samples and adjust the gel.
Quality control before packing capsules.

➤ **Mechanic marijuana encapsulator**

The man. Technical skills. Good vision without glasses. Attentiveness. Ability to operate machinery and equipment.

Preparation of equipment for work.
Connection of additional equipment.
Acting as an equipment operator.
Cleaning and testing equipment.

Squares for your marijuana oil capsules factory

FACTORY ROOM FUNCTIONS

1

Laboratory

Area from 100 ft²/ 10 m²

Control parameters of incoming materials.
Gel preparation.
Cooking oil filler capsules.
Control the viscosity of the gel.

2

Warehouse

Area from 100 ft²/ 10 m²

Warehouse of incoming materials. Finished products warehouse.

3

Production room

Area from 160 ft²/ 15 m²

Marijuana oil capsule production.
Placement of the entire production line.
Encapsulator and additional equipment.

4

Wash room

Area from 100 ft²/ 10 m²

Cleaning the surface of the capsules. Preparation of capsules for drying.

5

Capsule Drying Room

Area from 100 ft²/ 10 m²

Racks for placing the capsules at the time of drying.
Preservation of the desired temperature, the separation of moisture from the air, ventilation of the air.

6

Packing room

Area from 100 ft²/ 10 m²

Visual quality control of finished capsules.
Check the weight, thickness of the shell.
Packaging equipment ready capsules.
